

WAQAS RAFIQUE

Full Stack Web Developer

✉ vickyksr2218@gmail.com | ☎ 0322-4188759 | Johar Town, Lahore

■ github.com/waqasahmad18

PROFILE SUMMARY

Full Stack Web Developer with 4+ years of experience building scalable, production-ready web applications across e-commerce, healthcare, HRM, and SaaS domains. Proficient in React.js, Next.js, TypeScript, Laravel, Shopify, and WordPress — with a strong focus on clean architecture, performance, and UX.

WORK EXPERIENCE

Full Stack Developer

2025 – Present

Interact Global

Lahore, PK

■ Interact HRM System

End-to-end HR platform built with Next.js, TypeScript, and MySQL. Role-based access for Admin / HR / Team Lead / Employee, clock-in/out, automated break validation, leave management with approval workflow, payroll with overtime formula, Python-scheduled auto-clock-out on Ubuntu server.

github.com/waqasahmad18/Interact_hrm

■ MIPS Measures Dashboard

Analytics dashboard for tracking MIPS (Merit-based Incentive Payment System) measures. Built with Next.js and TypeScript — real-time data visualization, measure scoring, and performance reporting for medical practices.

■ MIPS Measures Management System

Comprehensive MIPS measure management platform for healthcare administrators: measure configuration, provider-level reporting, audit trails, and clinical data workflow integration.

■ WordPress Projects

Developed and maintain multiple WordPress websites for corporate and services sector clients — full site builds with custom design, responsive layouts, and ongoing improvements.

Shopify Developer

2024 – May 2025

HEXACLICKS

Remote

■ Dirndl Delights — Shopify (Impulse Theme)

Custom Shopify store with extensive Figma-to-code implementation, custom Liquid sections, dynamic elements, and brand-aligned layout modifications while maintaining optimal performance.

dirndldelights.com

■ Dirndl Online Shop — Shopify (Pipeline Theme)

Clean, modern e-commerce experience with customised sections, responsive product pages, and a streamlined checkout process.

dirndlontheshop.com

Freelance Full Stack Developer

2022 – 2024

Self-Employed

Remote

■ ShoeMart.pk — E-Commerce (Next.js + MongoDB)

SSR e-commerce with admin dashboard, dynamic product pages (size/colour), cart & checkout, Cloudinary image optimisation, deployed on Vercel.

shoe-mart-pk-vek8.vercel.app

■ Alpha Health Care — Digital Healthcare Platform

Responsive healthcare prototype: appointment booking, video consultations, lab scheduling, medicine delivery — specialty filtering tailored for the Pakistani market.

alpha-health-care.vercel.app

■ Doctors Appointment — Booking App (React + Vite)

Full-stack doctor appointment booking application built with React.js and Vite. Features doctor listings, specialty filtering, appointment scheduling, and a dedicated client-side interface — with a Node.js backend for managing bookings and user data.

github.com/waqasahmad18/Doctors-Appointment

■ **NexaTech — Tech Company Website**

Responsive single-page prototype for a full-stack tech services firm covering web, cloud, AI/ML, and cybersecurity services.

nexatech-vjkg.vercel.app

■ **Budget Tracker — Full Stack Finance App**

JavaScript full-stack application (separate frontend/backend) for tracking income, expenses, and financial goals.

github.com/waqasahmad18/Budget-Tracker
